DREAMS Club AGYW mobilized / referred to Malawi EMPOWER by Ana Patsogolo Activity (APA)

Before provision of standardized evidence based SRH & HIV services at outreach clinics, outreach teams shall register all present active DREAMS AGYW in the In-Coming Register.

Outreach teams will make **Active referrals** of DREAMS AGYW to facilities or other DREAMS partners for services that are part of the Primary & Secondary packages but currently not available at service provision.

The referring service provider shall generate a DREAMS referral form in triplicate: One tear-off slip will be left in the referral booklet & one copy sent with the AGYW to share with the service partner/provider.

Outreach teams shall document all generated Out-going referrals in the Out-Going Register right at the outreach clinics.
(For referrals made by YCBDAs: YCBDAs shall on a weekly basis submit referral forms to RLC at the nearest facility)

Service provider at facility (Referral & Linkages Coordinator), certifies services provided and drops copy of tear-off slips into the Malawi EMPOWER referral box,

One tear-off copy sent with AGYW

One copy filed or attached to the Clinic Visit Form to submit to M&E Unit

Out-going Register

With lists of all generated referrals.

Outreach teams will routinely collect referral forms from referral boxes to submit to M&E Unit for entry.

Tablet-based data entry

Referral slips attached to CVF keyed into the DHIS2 Service Delivery Form. Referral-slips collected from facilities keyed into DHIS2 to confirm and close.

District office.

Referral slips stored in lockable filing cabinets.

Note: The referring partner is also responsible for generating a DREAMS referral form in triplicate: one copy to be kept by the referring partner and two copies sent with the AGYW. Of the two copies sent with the AGYW, one remains with the receiving partner/facility for their records and the other remains with the AGYW so she can return this to the referring partner, (*DREAMS Database Referral & Linkages SOP, June 2020*).
